

About the Candle Holders

This system is a very simple and elegant means of supporting and arranging your candles.

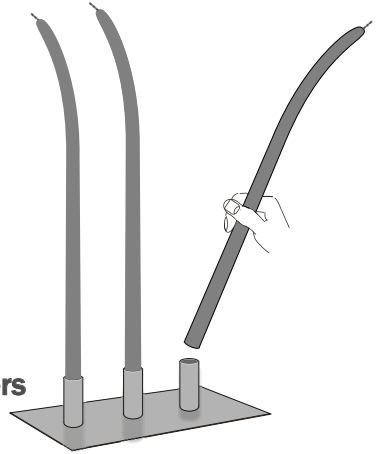

The tubes have a strong magnetic attraction to the base plates which means they are quick and simple to arrange, and allow total flexibility for custom layouts. The exceptionally strong magnets hold the candles very securely, but also allow for those final precise adjustments.

Colour - white

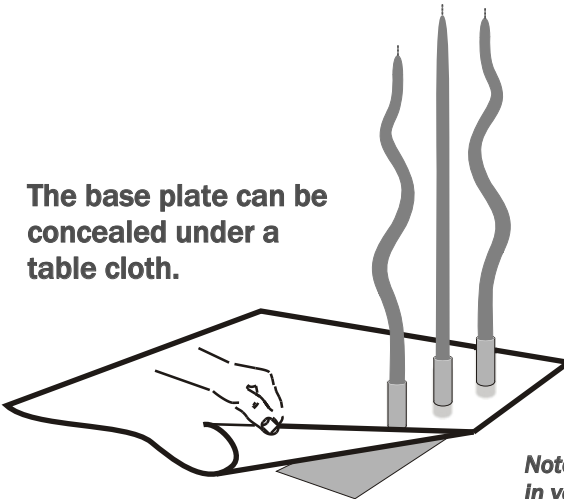

1. Position the magnetic candle holders to suit your design.

2. Place candles into holders

The base plate can be concealed under a table cloth.

Note: Candles can also be supplied for use in your own candelabras.
